

M/Y Carmen Fontana

- Aether is a product that disinfects and sterilizes the environment
- Causes no hazard to humans and the environment
- Product solution breaks off into oxygen

- Full spectrum of activity bactericide, virucide, fungicide and sporicide.
- Even disinfection of air and surfaces: 100% of the environment is disinfected.
- The natural properties of the product which resemble the natural gas disinfect the whole area including electronic parts without corroding or oxidizing.
- Germs are self destroyed.

A unique combination of patented technologies with repeated results which combine simplicity, rapidity and efficacy preventing any resistance of the germs.

INNOVATION	EFFICACY	RAPIDITY	SIMPLICITY
Our concept is based on the distribution of a dry disinfectant fog. Thanks to its particles of 5µ, the solution reaches evenly all surfaces.	Provides integrated disinfection by reducing pathogen load 99.9% of the sterilized area. Efficient at every treatment.	Effective even if using low dosage (1 ml / 1 m ³). Standard effectiveness at every application.	Very easy to use. Designed to be compact, lightweight and easy to transport. No intervention is needed during the application.

PURESPACE® in YACHTS

Anti-Allergic & Anti-Bacterial Spaces

MY Carmen Fontana

With a distinctive trademark of PureSpace®, customers will be able to distinguish and identify those cruising vessels which are actively try to eliminate the bacteria, viruses, fungi, spores, dust mites and other pathogens.

PureSpace® in CABINS & BATHROOMS

- Opportunity to eliminate bacteria, viruses, fungi, spores, but also insects, mites, bed bugs or odors simply by using a different product refill.

PureSpace® in KITCHENS

- No risk of food contamination from chemical products.
- Eliminate the risk of food poisoning.
- Technology adapted to operate in food environments and food processing.
- Sterilizes the air and anything else in the environment: not only flat surfaces but also furnishings and cooking appliances.

MY Carmen Fontana

*Innovative technology for real progress in **DISINFECTION***

*A unique experience for your customers. Become **PureSpace®***

A strong marketing advantage to differentiate your Vessel from the competition!

PureSpace® ADVANCED DISINFECTION

- Product is non allergenic and odorless and poses no risk to humans or the environment.
- All fields of effectiveness: Bactericide, virucide, fungicide and sporicide.
- The interior spaces of the yachts are ideal spots for an epidemic rash. Transmission of pathogens could turn the cruise into a blast with harmful results.
- Evenly disinfection of all surfaces, including electronic devices, without corroding or oxidizing. Absolute dry mist: No humidity residues.
- Regular preventive application at spaces with high level risk of contamination. Remedial function in case of acknowledged contagion. Disinfection of high medical degree.
- Sanitizes the air and anything else in the environment: not only the flat surfaces but also carpets, sofas and beds.
- A requirement that can be developed to differentiate your business from the competition, becoming a strong competitive advantage over time.
- Improves the quality of guests' stay.
- Reduces the risk of bad reputation.

PureSpace® VERSATILE TECHNOLOGY

- A different refill solution is used to eliminate odors, insects, mites or bed bugs.
- Very low cost of purchase: 1L solution can disinfect 1.000m³.
- Quick installation in 30 seconds, automatic application without preparation.
- Customized application of inner spaces from 15m³ to 40.000 m³.
- Application efficacy does not depend on the operator; the results are consistent.
- Simplicity: machine weight 5kg, one start button, no preparation, no residues.

PureSpace® in DINING LOUNGES & LIVING ROOMS

- Areas congested with many guests are ideal locations for the development and spread of infections.
- Quick application and disinfection of the areas without any size limit.
- No need to ventilate the area or remove things. No residue after application.
- High quality disinfection without any risk to human health. Reliable and perfect results.

*Ideal application also for **Jacuzzi & Sauna Area, Cockpit, Engineering units, Storage units, etc.***

A "true" hygienic environment on board

PureSpace® LIFE EASIER for the crew staff

- Tasks are simplified.
